

Trafinz Leadership Awards 2020

Trafinz Safety Leadership Award

Vision Zero for Tāmaki Makaurau, a transport safety strategy and action plan to 2030' - Auckland Transport

AT's Vision Zero approach values everyone using the transportation system, not just those in vehicles. It is about caring for our more vulnerable road users such as people walking or cycling, children and the elderly and their health as well as their wellbeing.

The structured aspirational Vision Zero transportation system is internationally successful and with continued committed leadership can and will be successful in Auckland and across NZ.

AT's courageous approach is backed by strong research and a recognition of the need for people centric design.
